

Deliveries of parcels to d-log

All items that are delivered to d-log must first be created on the Spiel direkt eG web portal. Nothing may be delivered to d-log that has not been created in the web portal.

Awards/Content

- Single-variety packages are preferable to mixed packages.
- Within the parcel, separation by type must be carried out using other containers (bags, small boxes, etc.) if it is not possible to separate parcels by type.
- The number of items and CEs must be indicated on a delivery bill on/in the parcel.
- Only the article numbers (SKUs) of Spiel direkt eG apply. If these cannot be specified, the EAN code must be given.

E-mail address: we-wa@d-log.de
